MAIN LOGO SPECS

Our main logo combines both the symbol and wordmark to fully represent the brand identity. It is available in both dark and light variations for optimal readability on contrasting backgrounds.

In order to maintain a consistent visual balance, we recommend allowing sufficient space around the logo. This padding area ensures that the logo has ample breathing room and remains visually impactful.

HORIZONTAL LOGO SPECS

The Horizontal Logo is the preferred layout for applications requiring a wider visual format. By combining the brand symbol with the Hot Wheel wordmark, it delivers a strong and recognizable identity while maintaining a clean, premium appearance. It is available in both light and dark variations to ensure maximum legibility across different backgrounds.

Always maintain the specified clear space around the logo to preserve its visibility, balance, and overall brand consistency.

LOGOMARK SPECS

Our logomark is a simplified, symbol -only version, created for small-scale applications where a full logo may be less effective. It's a subtle yet recognizable mark for icons, social media, and compact placements. Available in dark and light variations, the logomark maintains visibility in all backgrounds.

In order to maintain a consistent visual balance, we recommend allowing sufficient space around the logo. This padding area ensures that the logo has ample breathing room and remains visually impactful.

PREMIUM METALLIC LOGO

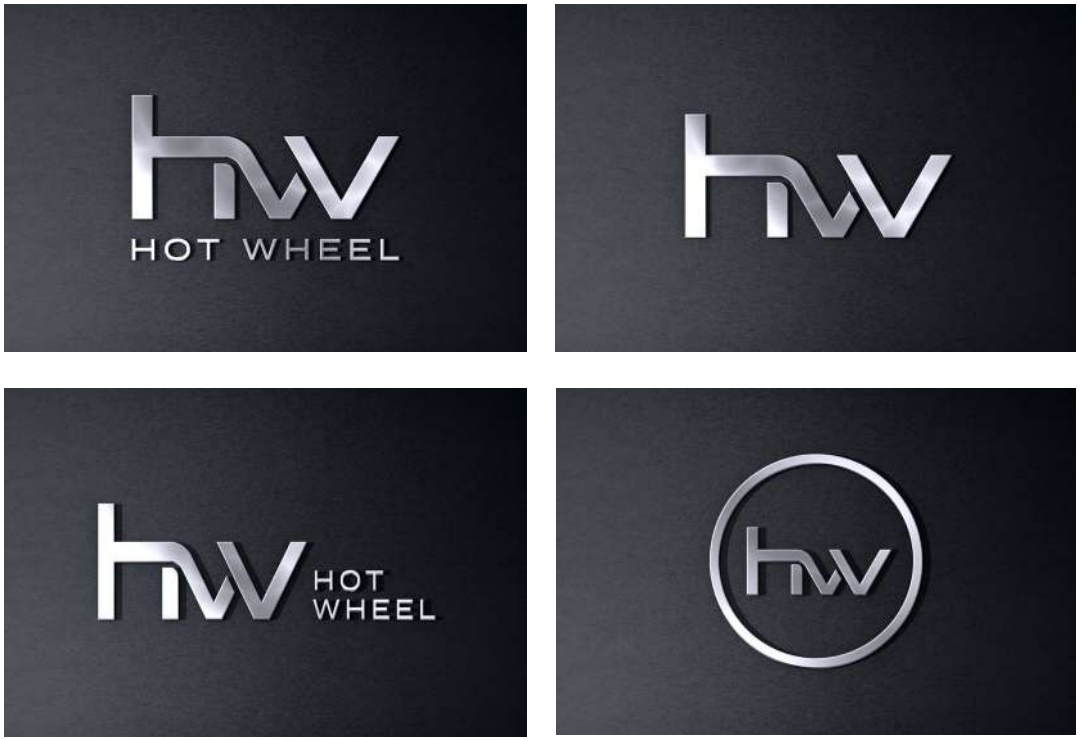

The Metallic Signature Logo is a premium presentation version of the Hot Wheel Used Motors identity. Featuring a refined metallic finish and subtle depth, it is designed to enhance the brand's luxury character in high-impact applications while preserving the integrity of the primary logo.

RECOMMENDED USES

- Premium marketing materials
- Social media covers and campaigns
- Showroom branding
- Website hero banners
- Corporate presentations
- Promotional videos

AVOID USING ON

- Small-size printing
- Official documents
- Business forms
- Situations requiring maximum legibility
- One-color applications

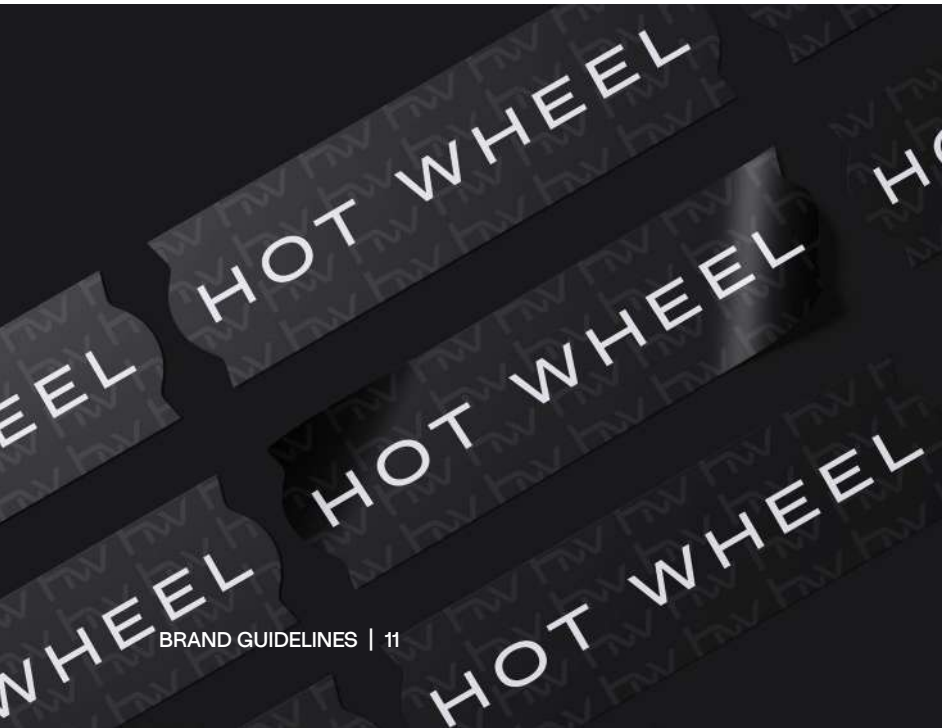

WORDMARK LOGO SPECS

The wordmark provides a minimalist, text-only representation of the brand in our signature typography. It comes in both dark and light versions, with each modified for optimal legibility: the dark wordmark is best on white and light backgrounds, while the light version is designed to pop on dark backgrounds.

The wordmark serves as an alternative logo for applications requiring a refined horizontal presentation. It is recommended for narrow or wide formats where the primary logo may not achieve optimal visual balance.

LOGO USAGE

Legibility

To ensure optimal visibility and maintain the integrity of our logo, it is crucial to adhere to proper placement guidelines. When placing the logo on a background, ensure that the background is free from distracting elements that may diminish its visibility or compromise its visual appeal. The logo should be surrounded by clean space and a contrasting colour to allow it to stand out effectively.

By adhering to these guidelines, you will ensure that our logo is consistently represented with the appropriate padding and visual prominence, thereby maintaining its impact and reinforcing the strength of our brand identity.

Do not’s

To ensure the brand’s visual identity remains strong and consistent, avoid these common mistakes when using the logo. Do not alter the logo’s proportions, stretch or distort its shape, or rotate it in any way. Never add drop shadows, outlines, or other effects that compromise its clarity. Avoid changing the logo’s colours, unless otherwise specified in the approved colour variations. Additionally, refrain from placing elements over the logo, as this can reduce legibility and weaken brand impact. Follow these guidelines to preserve the integrity of the logo across all applications.

Do not use shadows or effects

Do not create holding shapes

Do not modify proportions

Do not alter the colours

Do not rotate the logo

Do not use overlapping shapes

Colors

COLOR PALETTE

The Hot Wheels Motors color palette is built around a refined monochromatic foundation that reflects confidence, sophistication, and timeless luxury. Jet Black represents strength, prestige, and authority, while Pure White introduces clarity, simplicity, and balance. Supporting tones of Titanium Gray and Platinum gray enhance the brand with depth, precision, and a premium automotive aesthetic. Together, these colors create a clean, modern identity that communicates quality, trust, and elegance across every brand touchpoint.

Typography

TYPEFACES

Typography is a fundamental element of the Hot Wheels Motors visual identity. The selected typefaces combine timeless elegance with modern clarity, creating a refined visual language that reflects the brand's premium positioning. Maiah adds sophistication and character to key brand communications, while Acid Grotesk provides exceptional readability and versatility across both digital and print applications. Together, they establish a balanced typographic system that is confident, contemporary, and consistently recognizable.

Paragraph / base

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

Weight: Regular/400 | Font Size: 14pt | Line Height: 142% | Letter Spacing: 20

Typographic hierarchy

The typographic hierarchy establishes a clear and consistent structure for all brand communications. By defining the role, size, and weight of each text style, it ensures readability, visual balance, and a cohesive brand experience across every touchpoint.

Style	Font	Weight	Size
H1	Maiah	Regular (400)	56–64 pt
H2	Maiah	Regular (400)	40-48 pt
H3	Maiah	Regular (400)	28-34 pt
H4 / Section Heading	Acid Grotesk	Bold (700)	18-24 pt
Body Large	Acid Grotesk	Regular (400)	18 pt

Caption	Acid Grotesk	Regular (400)	10-12 pt
Button/CTA	Acid Grotesk	Bold (700)	14-16 pt

Usage

Maiah Regular → Hero headings, titles, premium messaging.
Acid Grotesk Bold → Section headings, labels, buttons, navigation, UI emphasis.
Acid Grotesk Regular → Body copy, descriptions, captions, supporting text.
